He Had No Fun in Him.

One of the members of the Methodist Conference held in Detroit was out for a walk at an early hour one morning, and encountered a strapping big fellow, who was drawing a wagon to a blacksmith shop.

"Catch hold here and help me down to the shop with this wagon, and I'll buy the whisky," called the big fellow.

"I never drink," solemnly replied the good man.

"Well you can take a cigar."

"I never smoke."

The man dropped the wagon tongue, looked hard at the member and asked:

"Don't you chew?"

"No, sir." was the decided reply.

"You must get mighty lonesome," mused the teamster.

"I guess I'm all right; I feel first-rate."

"I'll bet you even that I can lay you on your back," said the teamster.

"I never bet," said the clergyman.

"Come, now, let's warm up a little."

"I'm in a hurry."

"Well, let's take each other down for fun, then. You are as big as I am, and I'll give you the under hold.

"I never have fun," solemnly replied the member.

"Well, I'm going to tackle you anyhow. Here we go."

The teamster slid up and endeavored to get a back hold, but he had only just commenced his fun when he was lifted clear off the grass and slammed against a tree-box with such force that he gasped a half a dozen times before he could catch his breath.

"Now, you keep away from me," exclaimed the minister, picking up his cane.

"Bust me if I don't," replied the teamster as he edged off. "What's the use in lying and saying you didn't have any fun in you, when you are chuck full of it? You wanted to break my back, didn't you?"

Mrs. Garfield's Wealth.

A Clevelander says: Mrs. Garfield has $300,000 in Government bonds, the result of the subscription. Then her husband's life was insured for $50,000, which she promptly received. She was also paid the salary of the President for the unoccupied first year, amounting to about $50,000. That makes $400,000 does it not? Very well. Then add to it about $30,000, the total value of Garfield's estate. That was the total amount, after all the abuse that was received, that he was able to accumulate in a life of fifty years. I suppose that the income from this total of more than $400,000 will be, perhaps, $16,000 a year. So she is comfortable, and can raise her children well; but the loss of Garfield was a blow that will leave its scar as long as she lives.

A Singular Find

Dr. Cary Cox has a gold mine in Cherokee county, Georgia. The other day the hands were sinking a shaft, and when six feet below the surface they came upon two pieces of marble hewn into the shape and size of a human head. The work had evidently been done with good tools, and, while not entirely finished, showed that it was a skilled artist who handled the chisel. The heads were found under six feet of clay, which, to all appearances, had never been disturbed and lay directly upon a bed of slate. Near the mine is a bed of marble such as the heads are hewn from. The question is, who made the heads and how did they get under six feet of clay?

EDITORIAL NOTES.

The San Francisco *Daily Report* describing the Chinese quarter in that city says: "There are premises all over and all through Chinatown not one of which would exist were the health authorities ordinarily vigilant and in earnest, and yet they exist by the hundred—vile dens under ground and over ground, noisome with running filth or filth in pools and heaps; full of the most loathsome vermin; the walls black and actually ragged with great loose patches and strings of filth. There are also rows of houses, with the painted face and the foul tongue of a prostitute at every door; gambling dens by the dozen at every turn; fires blazing against the wood wherever the Chinamen like to put them; opium dens on every street and alley, and a gang of worthless "specials" with stars under their coats and almost equally worthless "regulars" with stars upon their coats, lounging around and seeing it all and knowing it all and doing nothing. Some day the people of this city will awake to the condition of Chinatown as they never have awoke before, and then there will be a manifestion of indignation and a resolute carrying out of reforms such as this city has never seen and hardly dreamed of."

In order to convey some definite idea of the vastness of the immigration to this country, the New York *Commercial Bulletin* says: Within three years the number arriving here equals the population of Denmark; it is 300,000 greater than the population of the Kingdom of Greece, nearly half as large as the population of Holland or Portugal, and nearly three-fourths as large as the population of the Swiss Republic. It is as large as the white population of these thirteen colonies in 1774.

It is said that it costs the Government $2,515,939 a year to execute its printing. The census has made an enormous amount of work the past year, but, nevertheless, the establishment is too costly. The maps, charts and engravings cost us $217,414. There is spent $900,000 for letter-heads, binding, blanks, etc.; $25,000 for printing eulegies, and $200,000 for Le Duc's agricultural reports, which are read by no one, and which generally find the stove.

Eureka *Leader*: Adams for Governor, Grimes for Lieutenant-Governor, Cassidy for Congress, Mayenbaum for Supreme Judge, Day for Surveyor-General, is about the Democratic slate as at present made up. This contains five more names than will be elected.

WESTERN TELEGRAMS

A Futile Attempt to Swindle.

SAN FRANCISCO, June 10.

The dismissal of the suit brought by Tully R. Wise, a lawyer of this city, against the Manhattan Life Insurance Company to recover a policy on the life of Murino Rubio to the amount of $15,000, brings out an interesting plot to swindle the company by a set of sharpers who furnished proofs of Rubio's death. A half interest in the policy had been assigned to Wise by Miguel Nos, a creditor of Rubio, for whose benefit the policy was originally made. A searching investigation resulted in finding Rubio alive in Mexico, and he was brought to this city. Nos and Wise appear to have been imposed upon as to proofs of death, and on being satisfied of Rubio's existence moved a dismissal.

Murder and Lynching.

LOS VEGAS, N. M., June 9,

James McHau and John Graves, employed on the railroad section at Pecos, thirty miles south of Los Vegas, engaged in a fight last evening. McHau shot and killed Graves. McHau escaped, but was afterward overtaken by a party of forty men and lynched. The body is still hanging. McHau was from East Saginaw, Michigan.

Flood in British Columbia.

SAN FRANCISCO, June 10.

A Victoria dispatch says the floods of Frazer river are doing great damage. Valuable tracts of reclaimed lands are submerged and the railroad track covered in many places. Culverts have been washed out and houses swept away. No loss of life reported.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

The Latest Irish Assassination.

NEW YORK, June 20.

The *Herald* says of the newest Irish assassination: A card upon the place of business of Thomas Bourke at 531 Hudson street yesterday morning bore the notice, "Closed in consequence of the death of Walter M. Bourke." The brother of the murdered man said the murdered brother had been educated at Trinity College, and went to India, where he was made Advocate of Calcutta. He amassed a fortune in India. During the famine he gave employment to sitxy or seventy men when he had nothing for them to do. "I may safely say he spent more than his entire income in endeavoring to relieve the sufferings caused by the famine, and yet on that very spot where he had done his best to help people he was basely murdered. Up to the time I left Ireland there was not a single man evicted. I have known him to entirely forgive non-payment of rental."

Bank Robbers Secured.

ST. LOUIS, June 10.

A special to the *Republican* gives particulars of the capture of the Brookfield robbers: Marshal McArthur of Brookfield, with a posse, started after the robbers within an hour after the robbery was committed and tracked them to a log-house on the Harper farm, in the woods about three miles from Kirksville. The house was fortified to some extent and had loop-holes made by knocking the plaster out from between the logs. The posse surrounded them and remained on duty all night. They agreed to surrender if guaranteed a safe conduct to jail and a fair trial. This being accepted, they were ordered to march out with hands up. The Sheriff went forward and took their guns, pistols and knives away from them. They were then taken to Kirksville, and from there to Brookfield on a special train.

The Ironworkers' Strike.

CINCINNATI, June 10.

President Jarrett of the amalgamated iron and steel workers, met the striking workmen of this vicinity at Covington last night. After hearing the case as presented by the men, he delivered the opinion that their strike was not justifiable and that the men were bound to continue at work under the terms of the contract of last October with the manufacturers. Tomorrow he will confer with the mill-owners and it is expected the mills will be running on Monday.

READING, Pa., June 10.

The striking pipe-mill men have made the following proposition: Changing from piece-work to day-work; $5 per day for straighteners, $2.50 for roll-men, $2.25 for first fireman.

CINCINNATI, June 10.

After the conference this morning, the men in the iron mills agreed to go to work on Monday at prices the same as when they quit work, and so remain until the scale is fixed at Pittsburg.

A Hotel Clerk Shot.

OMAHA, Neb., June 10.

Last evening E. D. Stiles, night clerk of the Union Pacific Emigrant House, was fatally shot by an emigrant named Charles Van Mason, en route from New York to Norfolk, Nebraska. Mason had had a quarrel with Stiles and was under the influence of liquor. Stiles, after being knocked down by Mason, followed him with a poker, when Mason fired two shots, one taking effect in the left hand, the other in the stomach. Mason was arrested and Stiles was brought over to his home in this city and is not expected to recover. He is a respectable and well-known citizen.

Prize-Fight Postponed.

PITTSBURG, June 10.

Weiden and Maloney, pugilists, who were to fight near the line, on an island in Ohio river, next Monday, announce a postponement of the mill until some future date, on account of threatened arrest by West Virginia authorities. It is thought this is only a ruse.

A Steamer Foundered.

NEW YORK, June 10.

Reports are received of the mysterious foundering of the British steamer Penedo on May 8th near Porto Santo, Madeira Islands, in a moderate head sea. She cracked amidship; her decks started up and she foundered in two minutes. Of her crew of 26 four were drowned. The others escaped in boats.

Senator Ben Hill at Home.

ATLANTA, June 10.

An immense crowd of people were at the depot to welcome Senator Hill. Owing to the critical condition of the Senator the only demonstration was uncovering of heads as the carriage passed.

A Crop of Naval Heroes.

ANNAPOLIS, Md., June 9.

Senator Jones (Fla.) delivered an address to the graduates of the Naval Academy. Secretary Chandler followed in a short address and presented the diplomas. As he gave Cadet Nixon first honor, the Secretary said: "I know this young man's family. His is an honest number one." The diplomas presented, the battalion marched out of the chapel and formed three sides of a hollow square, the graduates taking position in front. Cadet Midshipman Nixon presented the midshipmen with their detaching orders, and Cadet Eugene Theiss presented the cadet engineers with theirs. The battalion disbanded and the ceremonies of graduation day were over.

FOREIGN.

A Reward Offered For Murderers.

DUBLIN, June 10.

The bullet that killed Bourke entered behind the left ear. A dragoon received three shots, one behind the right ear, the other through the right arm and side, penetrating the heart, and the third through the right wrist. One person saw the assassins, but can not identify them. Of three men arrested one is named Martin, the others are named Holland. One of the latter is an evicted tenant. The soldier's rifle and Bourke's 16-repeater were stolen by the murderers. The Dublin *Gazette* contains a proclamation offering a reward of £2,000 for information leading to the arrest and conviction of the murderers, and £1,000 for private information leading to the same result; also, a free pardon and special protection to any one, not the actual murderer, who shall give like information. A further reward of £500 for information leading to the arrest and conviction of any one harboring or sheltering the murderers. The inquest opened at Rahasane to-day on the body of the victim. The jury returned a verdict of wilful murder. The police have found Snider rifles on the mountain side, two miles from the scene of the crime.

Irish Items.

DUBLIN, June 9.

Davitt, addressing a crowd before embarking for America to-day, said the Irish cause was to be won by a strong appeal to Justice—to a wild Justice of Reform.

Three farmers named Brown, at Bolina, east of Hickey, near Castleland, have been shot and seriously wounded.

The Judges have passed resolutions protesting against trials being held by a commission of three Judges without juries. In the event of the Repression bill passing with its obnoxious provisions, Baron Fitzgerald will resign.

DANCING.

A Short Disquisition on Ball-Room Awkwardness.

Though dancing is a popular amusement the world over, there are comparatively few really graceful dancers. Many of the young men of Reno are good dancers, but some of them gyrate around a ball-room floor like a tumble-bug on a hot plate. Some men are pitiful sights when they get up to dance. Awkwardness is no name for their clumsy movements. The timid dancer first looks scared and then gets red-faced and reckless and fans the floor with his feet as if he had secreted something in a knot hole and were covering it with surrounding dirt. Sometimes he is about four bars ahead of the music, and then as far behind. He spasmodically clutches his partner, who feels as if she were jammed between two freight cars. He holds his breath till he bursts off his collar button and then blows off steam with a prolonged grunt. When the dance is over he stands paralyzed and dizzy for a moment, while the room seems to revolve like a turn-table. When he reaches a seat he flops down like a gob of mud and turns to swabbing the back of his neck with a handkerchief or fumbling with the bottom of his vest, which perhaps has become so displaced by his violent exertions as to expose a white gash of shirt across his abdomen. In taking position with a lady for a waltz few gentlemen conform to the rigid rules that obtain in the lofty society in which the GAZETTE reporter has moved. The gentleman should take the lady's right hand in his left, and she place her left hand upon his shoulder, the fingers appearing in front. The gentleman should rest his right hand gently on the lady's back, near the waist, and both should stand on parallel lines, looking over each other's right shoulder, the lady turning her head slightly to the left. Both should bend the upper part of the person slightly, so that the shoulders should not be more than four inches apart, and the hands that are clasped should remain only a few inches from the person, not allowing the wild sticking out of arms recently adopted. In this grouping there is no more contact of persons than in a lady taking a gentleman's arm for walking. But, to put the whole matter in a nutshell, the vulgar and vicious waltz vulgarly and viciously; the innocent and refined, in a refined and innocent manner.

Grasshoppers.

The Greenville *Bulletin* says that all doubt about the grasshopper plague in Sierra Valley this season is now at an end, so far as their appearance is concerned; the only question now is, will any part of the valley escape their ravages? At present, what is known as Adams' Neck and the island are suffering the most. The farms of Steiner, Lathrop, Turner, Dyson, Wherrity and Huntly are covered by vast swarms that may at any moment spread to others. The people are now doing all in their power to destroy these pests by burning them with straw, dragging planks over the ground, plowing, and all else that can be thought of. Against the vast multitudes of these insects all such efforts are nearly vain; their number is not perceptibly diminished by all that human beings can do. Until the conditions favorable to their reproduction are changed, or they are assailed by some enemy more numerous than themselves, no relief need be expected.

Railroad Talk in Plumas.

They are again talking of building a railroad to connect Plumas with the outside world. It is said that a new route has been found from the Sacramento into the mountains to Greenville and Plumas. This route leaves Oroville by the Chico road and follows it to Dry Creek Canyon, then up that canyon through Concow valley, by Yankee Hill, crossing the west branch near Nelson's Bar, and from there will pass into the main canyon of Feather river, up which the road will come to Big Meadows. From there the route is easy to Greenville and Quincy. This project may, like others, end in talk, but every citizen of Plumas county heartily wishes to see it succeed. If the Plumas folks will wait patiently until we complete the N. & O. we will build them a snug little road from Reno.

A Dog's Revenge.

An old Maltese cat that has occupied rooms at the Golden Eagle Hotel for twelve years, of late got to think he was boss of the situation, and has been in the habit of bouncing small dogs that chanced to call at the hotel. Last evening an aggrieved canine of small proportions, brought to the hotel a chum and the two went for old Tom in dead earnest. The chase was a lively one—up stairs and down, onto tables, over chairs, etc. Finally, seeing an open door, Tom darted through it and was safe from further pursuit. Fur for sale cheap at the Golden Eagle.

Gopher Meat.

It is said that gophers and muskrats are very plentiful in Spanish Springs Valley, giving ditch owners considerable trouble by breaking their ditches. Little Indian boys and old bucks amuse themselves by catching gophers by the hundred and roasting them—stuck on sticks before a hot fire. The meat seems to be very toothsome to the native.

ARTESIAN WELLS.

What Nevada Needs to Make Her Bloom Like Eden.

A correspondent of the Eureka *Leader* says that on account of the scarcity of water and the absence of showers, but little more land can be cultivated than is utilized at the present time; whereas there is lying waste thousands of acres of virgin soil that would be made to blossom as did Eden of old by the use of water, which is in great abundance, only waiting to be tapped by the artesian boring. The Government would lose nothing, since it would only be making the public lands valuable, which otherwise must lay a worthless waste desert. A bill was passed at the last session to aid Colorado and some of the Territories, and why Nevada should have been left out perhaps our representatives can explain. There is so little moisture in Nevada that it is even pitiful to see the natural vegitation stinted before maturity, for lack of rain. It is wonderful why the representatives do not see the great advantages that would accrue to the National Treasury from these lands made valuable by demonstrating the supply of water. As to the productiveness there is no doubt. The writer has tried the Missouri rich lands for gardening, and also the Nevada lands by irrigation, and for the first crop without any dressing Nevada is the best, much the best. And now let us impress this as a certain fact that Nevada is a dry, hot table land, with no hopes of rainy seasons; if, by chance, there is a rain once or twice during the summer months, it is so warm and the air is so dry that if muddy one day it is dusty the next. After one blessing, the anti-Chinese bill, give us one more, artesian help.

AN OPENING WEDGE.

An Opportunity to Build Up a Profitable Business.

The leasing of the Auburn mill for reducing ores to be brought here by the Carson & Colorado road is the opening wedge to a great business which will one day be carried on along the Truckee river. Inyo county has millions of tons of base ores that will be brought here for reduction when the railroad is completed through that section, if proper mills and furnaces are erected here. A custom mill is one of the surest-pay concerns that money can be put into. Where plenty of ore can be obtained capital runs no risk in building reduction works. Though the miner may lose, the millman's pay is pretty sure. With unlimited water-power and plenty of fuel close at hand, there is no reason why Reno should not bid for the reduction business, which is sure to be created by the C. & C. when it taps the Inyo mineral belt. If Reno don't get it, some other place will.

ALF. CHARTZ.

Another Effort to Bring His Case Before the Board of Pardons.

The Eureka *Leader* of Wednesday says: "Col. W. W. Bishop is about to circulate a petition asking for the pardon of Alf. Chartz, which will be presented to the Board of Pardons at their meeting in July. This petition will be generally signed, and Colonel Bishop believes that, backed by this request on the part of our citizens, together with new facts that will be presented to the Board, the pardon of Chartz will be secured. He says, and in this he is supported by many, that the efforts in this direction heretofore were premature, and only tended to delay final action. Let the press of Nevada once more take up Chartz's cause, and respectfully ask the Board to take favorable action on his case." It is gratifying to know that Mr. Bishop is interesting himself in Chartz's case, and it is to be hoped the Hon. Board of Pardons will recognize the fact that poor Chartz has rights that are worthy of consideration. If pardoned he will make a good citizen.

An Eloquent Orator.

Father Buchard, the eloquent Jesuit priest, who has preached in every city, town and hamlet on the Pacific coast during the past 25 years, will begin a mission to-morrow at the Catholic church, and continue it one week. He is a very eloquent orator. Rev. Thos. Starr King, who was a magnificent orator himself, said that Father Buchard was the most fascinating speaker he ever listened to. Services will commence to-morrow morning at 10:30. On Sunday evening, and every morning and evening during the week, Father Buchard will preach at 10:30 A. M. and 7:30 P. M. A cordial invitation is extended to all.

How Did They Get There?

The Pioche *Record* says: "At the salt mountains in the lower part of this county, near Bonelli's Ferry, the men engaged in taking out rock salt found, between the iron cap-rock which is 30 feet in thickness, and the salt, a woven mat of cedar bark, a piece of a blanket and a number of coals, supposed to be the remains of a camp fire."

Worse Than a Chinaman.

Four Chinamen went east this morning to start a shoe factory in Connecticut. They had a white man with them who will be foreman. His name is Mange—a very appropriate name for a mechanic who will get down to a job like that. He should be innoculated with the itch, and his hands tied so that he can't scratch.

A VOICE FROM THE COMSTOCK.

A Philosophical Miner who says the Old Lode will Surprise the World Again.

The following extract from a letter to a friend in Reno will give an idea of the thoughts and fancies that flicker through the brain of a miner as he delves in the steaming bowels of the Comstock:

A queer life, this mining. We are like so many huge gophers, burrowing away for thousands of feet in every direction. I tell you it is a fine field for the exercise of the combative and destructive proclivities of man. In fact, it is a continual battle with Nature's elements—water, heat, foul air and hard work; tearing, forcing, crushing to fragments, laughing at apparently insurmountable obstacles; if dashed back at times we are not dismayed, for so long as the "sinews of war" are supplied "there's no such word as fail." This camp is likely to surprise the world again as it has done in the past, though dark days are hovering o'er it now.

Plumas Items.

The subjoined items are from the Greenville *Bulletin* of June 7.:

The dairy ranches in this valley formerly owned by Preston and Vining have been bought by Mr. Hosselkus.

On last Friday as Mrs. Hamilton and Mrs. Powers of Big Meadows, were returning from a fishing excursion, both ladies and two of the formers children were thrown from the carriage. Mrs. Powers was considerably bruised, the children less, but Mrs. Hamilton was so severely hurt that for over two hours she was unconscious. No bones were broken, and she is now doing well.

On Monday afternoon about 4 o'clock fire broke out in the blacksmith shop of William Skinner and at once the pavilion building was in flames, the two structures being close together. The heaviest losers are Caspar Schmith, money, jewelry and wearing apparel, total loss not known. William Skinner, dwelling house, furniture, and blacksmith shop; total loss not known. Insured in American Central for $600. C. H. Lawrence, loss about $1,200; no insurance. John Geis, total loss not known; insured in Phœnix & Home for $1500. Some loss was sustained by W. Walraven and in the printing office from handling material.

Look Out For a Fraud.

As Reno is a handy place for "dead beats" to practice in, the following from the *Record-Union* may not be amiss: The traveling dentist who has been wandering through the country swindling widows and orphans, and who has so many aliases, is described as follows by the Chief of Police: Charles Holman, alias R. M. Sanders, alias S. P. Danforth, alias Saffield, alias Miller; native of Maine; age, 39 years; hight, 6 feet 1 inch; hair, dark brown, slightly mixed with gray, and grows very thick and low down on his forehead; heavy, brown chin beard and mustache; weight, 215 pounds.

A Fourth of July Celebration at the Fair Grounds.

The managers of the fair grounds announce that they will get up a novel Fourth of July entertainment at the race track on the Fourth, when $600 in prizes will be given. The amusements will consist of trotting and running races, a contest between brass bands, ladies' tournament, grand march of calithumpian horribles, and other laughable layouts, the particulars of which will be made public in a day or two.

Church Notices.

Services in the Baptist Church will be conducted by Rev. E. B. Hatch at 11 o'clock A. M. and 7:45 P. M. Morning subject: "The Lord's Prayer." Evening subject: "Where to Begin." Sunday-school at close of the morning service.

Rev. W. R. Jenvey will preach in the Episcopal Church at the usual hours to-morrow.

The morning service at the Congregational Church will commence at 11 o'clock; and the evening at 7½ o'clock. Sunday School at 12:20. A cordial welcome to all. A. B. Palmer, pastor.

After Witnesses.

A special agent of the Postoffice Department has been in White Pine county after witnesses, and has secured H. Featherstone, Postmaster at Ely; Postmaster Collins of Cherry Creek, and two stage drivers, named Andrews and Gray. They will be taken to Washington to testify in the star route cases. It is probable that lots of folks will turn up who know all about the swindle, if there is a chance to go on a junketing tour at the expense of Uncle Sam. The reporter would like to borrow information to make use of in this direction.

Piano for Sale.

A No. 1 H. F. Miller piano for sale cheap, on account of parties going East. Inquire of Mrs. Winfield Scott or at Brookin's store. *

When a dead town like Bodie can raise $1,100 in an hour or two for a celebration, it is a sign that some other camps are pretty well gone in.

Smile Again on Me!

Sighed Tom to his beloved. He knew not what gave her such a charm in his eyes. Her teeth, preserved by SOZODONT which she had used from girlhood did his business. She held her lover by virtue of SOZODONT. c5

Good-Looking Quartz.

Some quartz brought to town to-day from the recent discovery near Washoe City shows well in free gold. The rock is close grained and granulated, and is a good indication that the find is a promising prospect. Two men are sinking now, and have attained a depth of fifteen feet. A great many locations have been made in the vicinity by men who don't know that the law distinctly says that a location shall not be made until a vein is discovered.

A Good Idea.

The Carson *Tribune* would like to see a barber shop opened in the Secretary of State's office with Pete Cavanaugh, Jr., as chief artist. It says he is young, active, popular and thoroughly competent.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

BELL TONGUE SYRUP,

AN ACCIDENTAL DISCOVERY OF great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PANACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part stops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by
